Chamber Dinner Meeting Postponed

Postponement of the June Chamber of Commerce dinner until "cooler weather" was announced today. The dinner had been scheduled for this evening at 6:30 o'clock at Mrs. Smith's restaurant.

Two reasons were given for the postponement, the hot spell and conflict of the dinner with the firemen's and other activities this evening.

Earl D. Bacon, of the State Chamber of Commerce, who was scheduled to speak on "Industrial Development in Gettysburg," will be the speaker at the postponed dinner whenever it will be held, it was stated.

WELCOME RAINS SNAP LONG DRY PERIOD HERE

Farmers and victory gardeners were rejoicing today following the series of general showers that swept over Adams county Monday night to break the drought that had prevailed during the nine consecutive days of 90-degree or higher temperatures.

Although scattered showers had fallen throughout parts of the county previous to Monday's rains, the first general rainfall came Monday night.

Substantial soaking rains fell throughout much of the county although the fall was lighter in the southern and eastern sections.

At Arendtsville 1.13 inches fell Monday evening. The thermometer at the Arendtsville laboratory Monday went over the 90-degree mark for the ninth straight day when 94 degrees was recorded at 2:45 o'clock. Monday's minimum was 70 degrees and this morning's low was also 70.

Local Rainfall

Rainfall here until noon-time, according to the records of Dr. Henry Stewart, local observer, was .79 inches, nearly as much as had fallen so far during the month. Less than nine-tenths of an inch of rain had fallen in Gettysburg previously.

The temperature Monday was 92, while today's temperature threatened to reach the 90's despite the showers falling intermittently during the day. The humidity reading at noon was 89.

The Eagle award is conferred by the national scouting officials following approval of the application by local courts of honor.

WITHHOLDING TAX EXPLAINED TO LIONS CLUB

For average taxpayers, the withholding tax which becomes effective with the first pay period beginning on or after July 1 will meet most of their tax liability on 1943 income. Thomas J. McSherry, deputy collector of internal revenue for this area, told members of the Gettysburg Lions club at their weekly dinner session Monday evening.

The deputy collector described the withholding tax as "one of the most intricate pieces of tax legislation" ever to be made law in this country but promised the clubmen that when they put the required tax, credit, abatement, withholding and Victory levy figures on paper they will find their "tax liability not so hard to figure out."

Explanatory Leaflets

He said that the Treasury department soon will issue explanatory leaflets that will contain all of the information most taxpayers will require to meet their responsibilities under the new law. He offered the services of his office in the post office building here in aiding residents of this community in determining their 1943 tax bills.

With the statement that the new tax law is "not as involved as it sounds," Mr. McSherry opened an informal discussion of the new legislation—often interrupted by questions from members of the club—with a brief statement of the history of income taxes in this nation.

He said the first income tax law to be held constitutional was passed in 1913 and from that year until 1943 all income taxes were paid in the year following that in which the income was received. The five per cent Victory tax which went into effect January 1 was the first levy of its kind upon U.S. incomes, he said. The new 20 per cent withholding tax includes a three per cent Victory tax deduction on which there will be no future refund as was provided in the five per cent levy paid during the first six months of the year.

New Tax Forms

The speaker displayed and described new tax forms to be used by employer and employee in connection with the withholding tax. He also stated that in cases where the exemptions amount to more than the total taxable salary, that individual's tax would go back to the Victory tax plan with a three per cent deduction after exemptions. Among the objectives for Rotary listed at the session, according to Doctor Tilberg, were "mobilization of institutions for peace, the establishment of one world, one humanity, one peace, service above self, more interest in government affairs, establishment of jobs immediately for the millions of soldiers as they are demobilized, and higher standards of business morality."

START CHERRY PICKING HERE ON THURSDAY

Picking of Adams county's cherry crop this year will begin Thursday and the harvesting of this fruit crop is expected to require about twenty days, a county cherry expert said today.

The crop this year is not expected to exceed one-half the normal crop, the expert estimated.

A normal cherry crop in Adams county is about eight million pounds or about 125,000 bushels. The crop this year is not expected to yield more than 60,000 bushels.

The labor situation for the harvesting of this crop poses the most difficult problem confronting growers in many years.

Kids in War Plants

Normally children of sixteen and seventeen years comprised the largest part of the pickers. These youngsters, according to a local grower, made excellent pickers. Boys and girls younger than sixteen are not what a grower calls a good picker. Many start off the season with enthusiasm and a competitive spirit but soon this spirit wanes and many drop out.

This year a great many of the 16 and 17 year old youngsters have secured employment in defense plants and will not be available to harvest the crop. This leaves growers confronted with the necessity of employing younger children and what-ever oldsters are available to pick the crop.

"The labor shortage is definitely acute," one grower said, "and I doubt whether we will be able to pick all our cherries in time."

She wore a finger tip veil fastened with a spray of bouvardia and carried pink carnations and bouvardia. Her only jewelry was a pair of gold bracelets which belonged to her maternal grandmother.

Mrs. Jerry Wood, Vallejo, California, matron of honor, wore a floral printed white chiffon gown made on similar lines as the bride's gown but with short sleeves. She carried pink carnations and bouvardia and wore three pink carnations in her hair.

War Plants, Shipping, Oil Tanks, Railways Bear Brunt Of Assaults

By NOLAND NORGAARD
Allied Headquarters in North Africa, June 29 (AP)—One hundred Flying Fortresses flying roundtrip more than 1,100 miles smashed the northern Italian port of Leghorn with several hundred tons of bombs yesterday, damaging a light cruiser and four supply ships and creating havoc in oil tanks, railway yards and industrial plants.

The four-engined bombers hammered at the city for nine concentrated minutes, and returned home without loss, Allied headquarters announced.

Severe Damage

They created such ruin that an official report said, "five hours after the raid the entire port was still so heavily covered by smoke that accurate inspection of the damage was then impossible."

"Later, however," the report stated, "it was learned that all the storage tanks and an oil refinery were ablaze and that an inner 'inactive' light cruiser and four supply ships in the harbor were damaged. Little opposition was encountered and all the Fortresses returned safely."

"The Italians admitted 'very great' damage at Leghorn and said 175 persons were killed and 300 injured."

Meanwhile American medium bombers and fighters concentrated on airfields in Sardinia, setting buildings ablaze and pounding dispersal areas, and RAF Wellingtons raided San Giovanni near the toe of the Italian mainland.

Hit Cruiser

Photographs of the Leghorn raid showed "one hit and two damaging misses on the cruiser, and picture interpreters also reported many hits on the oil tanks," the official report said. "Also hit by numerous bombs were the railroad lines leading to the marshalling yards and tracks east of the city, a bridge, sheds, a storage depot or two." Hits were also scored near an iron foundry and torpedo factory.

Nearly 100 Fortresses raided Leghorn, 160 miles north of Rome, on May 28 in their longest combat flight from North African bases up to that time.

Medium bombers ranging over Sardinia encountered heavy enemy opposition both from the ground and in the air.

(New attacks upon Reggio Calabria and Messina also were reported by the Italian high command.)

Airfields in the Olbia-Venafiorita district in northeast Sardinia were attacked by medium bombers. B-25 Mitchells, escorted by P-38 Lightnings, dropped explosives on the barracks, administrative buildings, hangars and dispersal areas in the Alghero-Fertilia district on the northwest coast.

Seek All Scrap

Vernon Corle, fire company representative on the salvage committee, will be in charge of the fleet of trucks to be sent out Thursday evening to secure the paper and other salvage.

"While the principal emphasis will be on brown paper, we are still seeking all types of scrap," Mr. Corle said, "and about two months ago we had the best drive since we started the salvage campaign in this section. Then last month we slipped a little in quantity collected. This time I hope everyone will have salvage materials out on the sidewalks for us. We like to keep busy while making the tour of the town."

Program For July Fourth Postponed

Gettysburg's observance of the 80th anniversary of the Battle of Gettysburg and the fifth anniversary of the dedication of the "Eternal Light Peace Memorial" has been called off. The committee in charge reached that decision shortly before noon today.

General Brehon B. Somervell, commanding general of the U.S. Army Service of Supplies, who had accepted an invitation to deliver the address, was notified at noon of the cancellation.

Inability to complete arrangements for a radio broadcast of General Somervell's address because of a shortage of manpower in the technical field and further consideration of the pleasure-driving ban prompted the committee to cancel the program at this time.

The Gettysburg Photographic society will meet Wednesday evening at the home of Paul Kinsey, Seminary avenue.

By RICE YAHNER
London, June 29 (AP)—The RAF returned in great strength last night to Cologne where 1,000 bombers had blasted 300 acres of destruction in May, 1942, and laid the pattern for the city-by-city razing of German war industry.

In a double-bladed attack, British heavy bombers also struck overnight at Hamburg, submarine building center, and continued the minelaying that official sources announced yesterday had caused the sinking of a least 400 Axis vessels since the war started.

Twenty-five bombers were listed as missing. Thundering over the scene of the world's first 1,000-bomber raid for the 117th time, the RAF left fires leaping up towards the overhanging clouds.

The German high command called the Cologne attack "another serious terror raid against residential quarters."

COLLECT SCRAP IN GETTYSBURG THURSDAY NIGHT

Gettysburg's firemen will tour the borough after six o'clock Thursday evening in order to pick up all salvage materials that may be placed on the sidewalks by residents of the town. Dr. J. Walter Coleman, chairman of the local Salvage committee said today.

Doctor Coleman appealed to all residents to place as much brown paper and cardboard as possible for the firemen to pick up. "Perhaps the greatest salvage need at the present moment is brown paper and cardboard to be used for packing articles. While concentrated drives have made everyone conscious of the need for steel, iron, rubber and other salvage articles, there has been little done previously about salvaging brown paper. As a result supplies have run dangerously low," he said.

Attack Shipping

In secondary night sweeps, Fighter Command aircraft attacked enemy shipping in the channel, damaging one small supply vessel and two escort craft, the communique said. At the same time intruder patrols attacked railway targets in France.

Last night's raid was the eighth British assault on German targets in 10 days.

USE CAR STAMP DUE THURSDAY

The Gettysburg post office today prepared for a large scale sale of the \$5 use-car stamp Wednesday and Thursday, with a minor rush reported today and on Monday. The new stamps are due Thursday.

Up to 9 o'clock this morning 600 stamps had been sold, 100 less than the number sold at the same time last year. Most of the 600 were sold in the last two days.

Adams county motorists last year purchased 1,400 stamps up to the close of business July 1, and it was expected that the number would be slightly smaller than that this year. Acting Postmaster Lawrence E. Oyler pointed out that a number of persons are planning to put their cars away until additional gasoline rations are available. However, he said, most of the cars in use today are employed for necessary purposes and it is not expected that the drop in sale of stamps will be considerable.

3,025 Sold in 1942

Total sales by the end of July last year was 3,025, with a number of additional stamps sold after that time. It was pointed out that a reduction is given in the cost of the stamps each month, with persons buying stamps in August obtaining them about 42 cents cheaper than those buying for July. Many persons who do not plan to use their cars for the next month or two can wait to purchase stamps until they are ready to use the vehicle again in order to take advantage of the reduction, it was stated.

Purchase of the stamps is compulsory if the car is to be used.

WALLACE RAPS JESSE JONES AS OBSTRUCTIONIST

Washington, June 29 (AP)—In a new clash between major administration figures, Vice President Wallace today accused Secretary of Commerce Jesse Jones of "obstructionist tactics" and of harassing the Board of Economic Warfare in its "single-minded effort to help shorten this war by securing adequate stocks of strategic materials."

In a statement prepared for the Senate Appropriations committee, Wallace, chairman of BEW, also stated that Jones, who heads the Reconstruction Finance corporation, which supplies funds for BEW buying of strategic materials, had created a "false impression" in testimony before the Congressional economy committee headed by Senator Byrd (D-Va.).

Some Obstacles

"It is time to prevent harmful misrepresentations of this nature," Wallace said.

"Although the President, on April 13, 1942, transferred full control over the programming of imported strategic materials from the Reconstruction Finance corporation to the Board of Economic Warfare, which operates under broad directives received from the War Production board, Mr. Jones has never fully accepted that authority."

"He and his personnel down the line have thrown a great many obstacles in the way of our exercise of the powers given us to carry out wartime assignments. Some of these obstructionist tactics have been minor and annoying and some have been of major consequence in this job of waging total war."

BURDEN OF WAR RESTS ON HOME FRONT EFFORTS SAYS OBSERVER

By DEWITT MACKENZIE

When I came out of the far-northern Maine woods last week-end, after being cut off from news during a fortnight's fishing vacation in the wilds, naturally the first thing I demanded was what the main development of the war had been during that period, and the quick answer was:

"The coal miners are going back to work."

Characterization of a coal mining situation as the biggest current news of the war had an off ring in the ear, but undoubtedly that appraisal was the correct one. Continuance of the coal stoppage would represent a major disaster. We have been treading dangerously close to the edge of a precipice.

Need Production

The trend of the operations in all theaters now depends on production and transportation. Invasions hinge on the availability of equipment and supplies in the fighting zones.

The next two months are likely to go far towards determining the length of the European conflict. If the Allies have the striking-power to carry out projected operations and establish that western front this summer, the war will be greatly shortened. If cessation of production in any vital line at home right now should deprive the war fronts of supplies, then Hitler might get the year's respite which he has been hoping for to enable him to repair his damaged war-machine and get set for a defense calculated to produce a stalemate.

In short, as this column has remarked previously, the burden of this war rests very largely on the shoulders of the civilian workers at home. We can't pass the buck to the soldiers at the front, because they are helpless without equipment. This is one case where the congregation has to do its own laboring and praying, and not leave everything to the overworked clergyman in his pulpit.

Need Two Fronts

The second most important piece of news, and one closely interlocking with the first, seemed to be Stalin's renewed appeal for the opening of a western front by the Anglo-American Allies. The Soviet Generalissimo in his reply to the Allied messages on the anniversary of Hitler's attack on Russia declared:

"Victory will come all the sooner of this I have no doubt, the sooner we strike our joint united blows against the enemy from east and from west."

At the same time Moscow issued a communique which said that "everything now depends upon the manner in which our Allies will exploit the favorable situation by creating a second front in Europe, as victory over Hitlerite Germany is impossible without a second front."

The communique added that to "miss the opportunity afforded by the favorable conditions now prevailing for the opening of a second front in 1943" would be a serious setback for the Allied cause.

Bats are not blind, but their vision is acute during day as well as night.

Pilot Dodges Icebergs And Lands Ship On Reef In Arctic

Washington, June 29 (AP)—

Caught by fog on a patrol off Greenland, an Army pilot brought his plane down to within 10 feet of the sea, dodged icebergs at that level trying to find his base, and finally crash-landed on a 300-foot reef—with his crew safe.

The War department reported today the story of the hazardous journey of a B-25 Mitchell bomber, piloted by First Lieut. Julian J. Blais of Fitchburg, Massachusetts.

Gas Supply Low

Blais and his crew of five were returning to their base from a routine patrol when trouble started—fog closed in. Blind flying would have been suicidal over the mountainous country. Radio navigation was impossible because of snow and static. Gas was running low, and there was no alternate airfield, and ice was weighing the plane down.

Hoping the weather would break, Blais took the ship up to 14,500 feet and headed home. He came over the base, but there was no "hole" in the clouds and fog, so he headed out to sea, came down to a bare 10 feet over the water.

Knowing that if they came down at sea the life expectancy of himself and his crew would be about 20 minutes, Blais headed inland again. Time after time he had to swerve sharply to avoid the icebergs that loomed suddenly through the fog.

Daring Landing

Finally, with only a few minutes' gas supply left, he spotted a low-snow-covered reef, with not more than 300 feet of landing space, and decided to risk it. Landing, the tail touched first, and the plane plowed into a boulder that ripped the right engine out. The fuselage broke just aft of the midsection, and the plane jolted to a halt. The escape hatch was jammed, so the crew broke a window and climbed out, to find that the only injuries any of them had suffered were cuts and bruises.

Technical Sergeant James R. Brewster, of Maskell, Nebraska, the radio operator, made contact with the base, but the fog held and it was not until the third day that a rescue plane finally located them. The pilot dropped food and bedrolls, and then went back to the base to report that what he had seen was almost incredible—that it would be impossible to land on the reef. He had the exact position, however, and a Coast Guard ship found the men and brought them back.

With Blais and Brewster were Lieut. I. L. Moor, Grangeville, Idaho, co-pilot; Staff Sergeant James Whitehead, Taft, Texas engineer; Staff Sgt. John C. Whitman, Norristown, Pa., and Staff Sgt. C. C. Cook, Missoula, Montana.

MANY MINERS RETURNING TO NATION'S PITS

Washington, June 29 (AP)—Interior Secretary Ickes left the impression today he might operate the nation's coal mines for the government until the owners and the United Mine Workers sign a contract.

Pittsburgh, June 29 (AP)—Slowly, but district officials of the United Mine Workers insisted surely, the more than 150,000 striking miners of the nation were returning to work today to join the 400,000 who already had ended their walkout in protest against failure to get a new wage contract and more money.

The insurgent drive against work resumption centered in Pennsylvania, where 56,000 of 83,000 anthracite workers in the east were idle and approximately 50,000 of 117,000 soft coal miners were out in the west.

TO: Every American on a Payroll FROM: The Secretary of the Treasury

SUBJECT: The New Pay-As-You-Go Method of Collecting Your Income Tax

Starting July 1st, both your Income and Victory Tax will be collected by an entirely new and more convenient method.

Under the old system, you were obliged every March 15th to pay either the full tax for the previous year, or a quarter of that amount. Under the new system, you will keep paid up from month to month.

After July 1st, your employer is obliged by the new law to withhold every month a part of your wages and turn the money into the United States Treasury as payment on your Income and Victory Tax.

Of course, the amount that your employer withholds will depend upon your pay and your exemptions. But this is the important point: For most of us, the amount withheld over a year's period will add up to the same that we're paying now—plus or minus a few dollars.

At the end of the year, we may owe the Government a few dollars or the Government may owe us. (See the tables below.)

You may have heard 20% mentioned as the proportion of your wages that will be withheld. Actually, this is incorrect. To figure the amount that will be withheld, take your total wages and subtract your allowance for exemp-

tions and allowance for dependents; 20% of this lesser amount is the total that will be withheld.

Now please remember this: You must claim those exemptions to take advantage of them. Before July 1st, you must file with your employer an Exemption Certificate. If you do not do this, your employer will have no choice but to deduct 20% of your full pay check.

Here is how the new tax collection method will work: Let's say you are a working man earning \$3,000 a year; that you are married, and have two children.

First of all, as a married man you are allowed a personal withholding exemption of \$1,248, plus an exemption of \$312 for each dependent (other than your wife). This makes a total exemption of \$1,872 (\$1,248 for yourself and wife, plus \$624 for your two dependents), which is deducted from the \$3,000 you earn before your tax is computed. You are thus paying tax on \$1,128, of which your employer will withhold 20%, or \$225.60 for the year. Therefore, in your pay envelope, after July 1, you will receive about \$4.40 less each week.

In March, 1944, when you ordinarily would be faced with paying taxes on your 1943 income, you will file a return showing how much you have already paid, and how much your total tax actually amounted to. If, by that time,

you have already paid more than your actual tax due, you will be given credit for the difference. If you owe more than you have paid, you will pay the difference.

Since this plan starts July 1, many wonder what happens to the tax payments they will already have made by that time—on March 15 and June 15.

For a great majority of people, here is what happens. . . . Your 1942 income tax is "forgiven" (either all, or most of it). The March and June installments which you originally paid on that 1942 income tax are credited, instead, as payments on your 1943 tax. With the result that on July 1st, with the year half gone, you have already paid tax on that half-year's income. In short, you are "paying as you go."

There is one thing more. Since this pay-as-you-go method leaves you just as much of your net income as you had before, you will probably find it possible to at least maintain your present rate of buying War Bonds. Do this by all means!

Taxes alone will not bring to the Treasury nearly enough money to finance the great invasion war that lies ahead. The war needs every cent of your money that does not go for the necessities of life.
